

TITAN

EPCOM GROUP

**Engineering ♦ Procurement ♦ Construction
Operations ♦ Maintenance**

We are a group of Industrial Service Companies strategically located along the Texas Gulf Coast with offices located in Corpus Christi, Port Lavaca, Victoria, Freeport, Clute, Houston and Orange. We can effectively provide Engineering, Procurement, Construction, Operations and Maintenance (EPCOM) services to our clients at a much smaller project level than the major EPC firms. Our EPCOM Alliance partners have contracts with most all of the majors along the Texas Gulf Coast. Titan promotes and manages the combined staff and skills for our EPCOM Alliance partners when operating as a synergistic whole.

TESTENGEER

INCORPORATED
ENGINEERING AND TECHNICAL SERVICES

Testengeer is a full service engineering firm satisfying clients throughout the Gulf Coast Region. Our hometown "can-do" attitude has developed long-lasting partnerships since 1979. We are actively involved with a wide variety of clients ranging from the petrochemical, refinery, petroleum, industrial, commercial, manufacturing industries to local municipalities and utilities.

Provides specialists and engineering support in all areas of Asset Integrity Management, including design, process support, process safety management, mechanical integrity and maintenance reliability, operational and turnaround support, environmental, corrosion, and document control.
