

WOLFENSON Electric, Inc.

About Us

Founded in 1959 Wolfenson Electric, Inc. began as an electrical contractor proving its industrial partners with electrical installation services. Wolfenson Electric, Inc. continues to be a leader in electrical and instrument installation services along the Gulf Coast and is dedicated to providing exceptional service to its customers.

Wolfenson Electric possesses the skills, man power and knowledge to deliver quality work in a time efficient, cost effective and safe manner. We are strategically located along the Gulf Coast with offices with our main office in Houston as well as offices in Port Lavaca, Corpus Christi and Freeport/Clute.

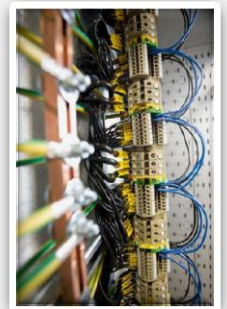

Services

Wolfenson's many years of Industrial Plant experience has allowed us to be successful in providing clients with quality instrument and electrical installation services for more than 54 years.

Wolfenson currently maintains approximately 350 Construction Managers, Project Managers, I/E Supervision, Electricians, Instrument Techs, Fiber Techs, and Security Specialists along the Texas Gulf Coast from Corpus Christi to Houston.
